SFB 680 MEETING

EVOLUTION OF DEVELOPMENT

AUGUST 27TH | MPIPZ COLOGNE

- 9:30 – 10:00 **Cassandra Extavour** | Harvard University
The roles of gene novelty and cooption in development and function of the germ line and nervous system
- 10:15 – 10:45 **Angela Hay** | MPIPZ Cologne
A morphomechanical innovation drives explosive seed dispersal
- Coffee Break**
- 11:30 **Felicity Jones** | MPI Tübingen
The genetic and developmental basis of adaptive trait variation in threespine sticklebacks
- Lunch Break**
- 13:45 – 14:15 **Nicolas Gompel** | LMU Munich
The genetics underlying the evolution of morphology and behavior in *Drosophila*
- 14:30 – 15:15 **Kristen Panfillio** | University of Cologne
Plasticity in extra-embryonic epithelial topography and morphogenesis across the insects
- 15:30 – 15:45 **Short post doc talk**
Christiane Kiefer | MPIPZ Cologne
