Description	Day(s)	Start	End	Location	Available Seats	Action
Developing teaching skills is an important asset for a researcher planning an academic career. In this workshop we elaborate the didactical basics of academic teaching. Participants will get an idea of the fundamental psychological concepts of learning and will learn how to use these insights for planning and structuring a course. Furthermore we consider these topics: skills-oriented conception of teaching, activating teaching methods and students' motivation. Participants will have the opportunity to try out methods and strategies to take first steps towards developing their own teaching competence.	2	5/12/2020 10:00 AM MEZ	5/13/2020 05:00 PM MEZ	Max-Planck-Institut für ausländisches und internationale Privatrecht, Mittelweg 167, 20148 Hamburg	12	View Details Register Now
